2. Data Quality: After Cleaning

Check	Count
Total rows	120
Duplicate rows	0
Missing purchase_amount	0
Missing city	0
Invalid purchase_amount (negative)	0
Invalid email format	1

Cleaning complete

3. Cleaning Steps Applied

- Removed 4 duplicate rows
- Imputed missing/invalid purchase amounts with median value
- Standardized inconsistent city names (case, whitespace, aliases like "Bengaluru" → "Bangalore")
- Flagged invalid email formats for follow-up
- Parsed signup dates into proper datetime format

4. Visual Summary
